---

### Tech Fortune Technologies

**Aug 2022 - Sep 2022**

#### FRONTEND DEVELOPER INTERN

- Collaborated with the development team to create and implement user interfaces for web applications.
- Assisted in the design and development of responsive web pages using HTML, CSS, and JavaScript.
- Conducted testing and debugging to ensure the functionality and performance of web applications across different browsers and devices.

### AICTE Oasis Infobyte Internship

**Nov 2023 - Dec 2023**

#### FRONTEND DEVELOPER INTERN

- Led the development of React-based web applications for various projects at AICETE Oasis Infobyte.
- Implemented React components to create modular and reusable user interface elements, enhancing development efficiency.

## TECHNICAL SKILLS

---

- JavaScript, React.js
- HTML5, CSS3, Bootstrap, Git and Github
- Basic Knowledge of: Node.js, Express.js, npm, API Integration, browser developer tools.

## PROJECTS

---

### Rock-Paper-Scissors Game | JavaScript

- Smooth Gameplay: Built with straightforward JavaScript code, the game smoothly handles player choices and outcomes.
- Clean Code: Despite its simplicity, the project emphasizes clean and organized JavaScript code for easy understanding and future improvements.

### To-do List | HTML, CSS, JavaScript, React

- Designed and developed a To-do List application using HTML, CSS, and JavaScript, providing a user-friendly interface for task management.

### Notes Keeper | HTML, CSS, JavaScript, React

- Built Keeper app with React, leveraging useState hooks for efficient state management.
- Utilized useState to handle component-level state, enabling dynamic updates and interactivity.
